## OBJECTIVE

---

Motivated and detail-oriented software development student pursuing an Honors Bachelor of Technology in Software Development. Eager to apply my skills in programming languages such as C, C++, and Python, as well as my experience with web development frameworks like Django and Flask, to contribute to [Company Name] as a [specific position]. Committed to leveraging my problem-solving abilities and collaborative skills to drive innovative solutions and support the team's success.

## SKILLS

---

- **Programming Languages:** C, C++, Python, Java
- **Web Development:** Django, Flask, JavaScript, HTML, CSS
- **Databases:** SQL, NoSQL, MongoDB
- **Operating Systems/Platforms:** Unix, Windows, Microsoft Office
- **Tools & Technologies:** GitHub, Jira, Visual Studio, VS Code, Figma, Android Studios, QT
- **Software Development:** Object-Oriented Programming (OOP), APIs, RESTful Services

## WORK EXPERIENCE

---

### Student Ambassador

September 2023 – December 2023

Seneca Polytechnic, North York, ON, Canada

- Engaged with prospective students and visitors, providing detailed information about Seneca College programs, campus facilities, and student life.
- Assisted in organizing and facilitating orientation sessions for new students, contributing to a positive and informative onboarding experience.
- Utilized strong interpersonal and communication skills to connect effectively with diverse groups of students and parents.

## PROJECTS

---

### Movie Watchlist Application

- Created a movie watchlist application using Django for adding, viewing, and managing movies.
- Implemented user management functionality, allowing users to register, add, and delete profiles.
- Designed an intuitive interface for users to build personalized movie watchlists.

### Listing API

- Developed a RESTful API using Express.js and JavaScript to manage and retrieve listings.
- Integrated user authentication and authorization using JSON Web Tokens (JWT).

## EDUCATION

---

**Seneca Polytechnic**

Start Date: 2022 | 2025 (expected)

***Honors Bachelor of Technology – Software Development (BSD)***

- **Relevant Coursework:** Data Structures and Algorithms, Data analyst, Database Management, Web Development, System Design, Information Security, Operating System, Multimedia Interfaces, Software Engineering, Business technology designer

## ACCOMPLISHMENTS

---

- Participant – Housing Hackathon “[View badge](#)”  
Successfully participated in a collaborative hackathon focused on creating innovative solutions for housing challenges. Developed and presented a project alongside a team, utilizing problem-solving, teamwork, and technical skills.
